

Lately you told me that you find it quite difficult to form own sentences. That's why we should practise this a bit.

Write own sentences about me. Keep the sentences short and easy.

possible points you could mention

- my name
- my age
- where I was born
- where I live now
- my profession
- my hobbies (table tennis, our homepage,...)
- what's typical for me
- what I like to eat and drink
- which things / habits I don't like
