sich vorstellen = to introduce oneself

When you meet new people you should be able to tell something about yourself.
It will be the first topic in the German course to introduce yourself. So it's nice if
you have prepared already some sentences in your mind.

<u>possible points to speak about are:</u>

- your name
- your age
- where you come from
- where you live now
- your profession (student)
- the reason why are you in Germany
- your siblings (age, names)
- your friends (age, names)
- your hobbies …

Please, try at first to form (simple and short) sentences without any material.
If you struggle check for example "Konjugation der Verben im Präsens" (exercise 40).
